Why choose V-SOL?...

When making a decision on a supplier we evaluate them to be sure they are right for us. We invite you to do the same as in our opinion best business is done when customer and supplier have like minded objectives and values.

Proud of our credentials.

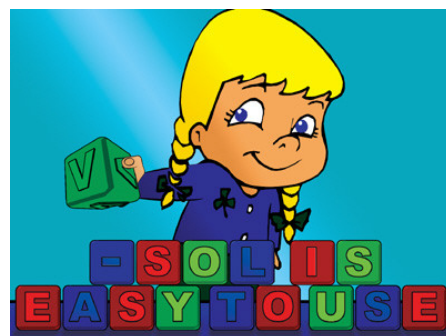

V-SOL have been supplying live GPS vehicle tracking longer than any other company in the UK. We have the highest productivity in our industry and our experience in what we do is second to none. The industry acknowledges our abilities to do what we say. Our products are built to last whereas competitors often replace equipment yearly and still cannot match V-SOL for robustness and reliability.

When it comes to long term value V-SOL cannot be beaten, we were the first to use live data for faster operation, lower running costs and to provide low cost text messaging. V-SOL are the only company in the industry to provide ISDN base station technology with NO MINIMUM CALL CHARGES.

Our customers chose V-SOL because...

- Easy to use
- Long term value
- Honest approach
- Product knowledge
- Understanding of their requirements
- The people at V-SOL

"saying what we do, doing what we say"

Our business objectives and quality policy support us in delivering on our promises. If you would like to know more about them or what we do please contact us. *David Isom - founder*

Vehicle tracking THE EASY WAY

? Where is ... FIND NOW provides the answer

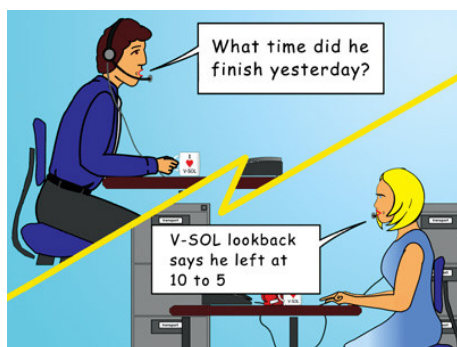

Touch the screen, within seconds see where they are now!

V-SOL tracking is live second by second with no time delays, enabling a vehicle to be directed to and or followed to a destination. V-SOL lets you check that a vehicle is exactly where it is supposed to be!

? When was ... LOOK BACK provides the answer

Pictures really can paint a 1000 words

Instant access to historic information. Review where they have been over a minute, hour, day, week, or in fact any other period. Maps are fully scalable from the level of a continent, country, region, city, town, a user-defined area or to 10 metres at street level. It is even possible to add buildings!

"with V-SOL touch technology training is a thing of the past"

Fleet location NO INTERVENTION REQUIRED

? Who can we send ... **INSTANT V-SOL provides the answer**

No Hands Operation, automatically updated maps and information 24/7!

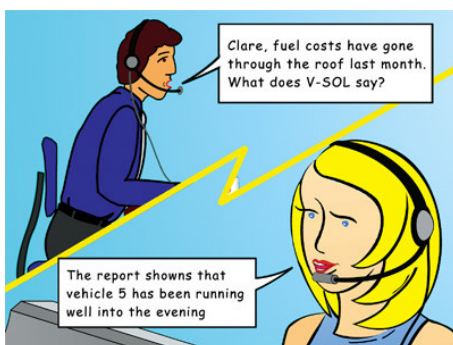

INSTANT V-SOL provides hands free tracking. Views of the operation can be configured around any number of vehicles. Key information can be displayed alongside maps providing instant answers to questions such as who is the nearest or who is waiting. Timely information allows for a more efficient operation.

"you don't have to work to make it work"

? What time, how far ... **V-SOL Reporting provides the answer**

The written word, when nothing else is GOOD ENOUGH

For the times when paper is best. V-SOL reporting can tell you who has been doing what, where and when. The information collected by V-SOL can be used to replace existing manually created reports. In very many cases a more accurate picture is provided.

"telling the truth whether its good or bad"

Communications SIMPLE AND EFFECTIVE

? Is it OK to talk ... V-TEXT provides the answer

V-Text provides non intrusive communications at a very very low cost

Efficiency and savings are inevitable if you use a combination of text messaging for information and voice calls only when absolutely necessary. Text messages are less intrusive and cannot be forgotten. V-Text can provide proof of delivery and reports can be used to review and plan work schedules. V-Text has a messaging screen that does not even require you to type messages. They can be sent in a few seconds and can cost as little as 2p to send, even worldwide. With V-Text cross network and roaming charges become a thing of the past.

"it's not always good to talk"

? How far, how long ... Route Planning provides the answer

For every journey, you need a PLAN

Plan routes and journeys with confidence using the premier street mapping and planning tool. The planning tool can use street addresses, place names, full postal codes, it can even work with your own collection of locations. Maps can be printed, faxed, emailed or even use them on the WEB !

"making day to day planning just that little easier"

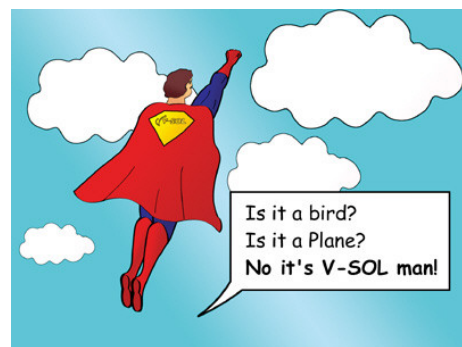

V-SOL Limited

V-SOL support ASSISTANCE WHEN ITS NEEDED

? What happens when ... V-SOL SUPPORT provides the answer

V-SOL provide online support for the times when you need a hand.

We care about customer service almost more than anything else. Each V-SOL system has a direct link to customer service. No matter what your question we will always try to be on hand to help. Using remote control we can be at your desk within seconds. Our head office control systems are setup to monitor how your V-SOL system is operating even when you are not able to check yourselves!

"it's like having your very own superhero"

? Do you feel ... that promises should be kept.

V-SOL Guarantees come with WEIGHT BEHIND THEM

At V-SOL we have a genuine way of working. Before any business is done we agree in writing what we will provide to each and every customer. Our promise is such that we will not promise what know we cannot do. Should we fail to keep to any of our pledges we will relieve the customer of any contractual obligations they have with us. Put plainly at V-SOL we say what we do and we do what we say.

"treating everyone we deal with as we would like to be treated ourselves"
